Mr. Richard Ziehm, President
Precision Extrusion Company
720 E. Green Avenue
Bensenville, Illinois 60106

Dear Mr. Ziehm:

I would like to thank you and Mr. Cramer for your assistance in the Department of Energy's investigations regarding past Atomic Energy Commission activities at your site. As I indicated, based on the records we have identified and my discussions with you, we have concluded that there is little potential for residual contamination at your facility. As a result, we are closing our investigations with regard to the Precision Extrusion Company.

As per your request, enclosed are copies of the records we discussed in our telephone conversation of November 13, 1987. If you have any questions regarding this material, please call me at 301-353-5439.

Sincerely,

151

Andrew Wallo III
